THREE INJURED CIVILIANS IN SAIGON TERRORIST RAID

Saigon 'Spruces Up News' Of U.S., Viet Cong Losses

SYDNEY, N.S.W. (AP)—An Australian newspaper man says U.S. briefing officers in Saigon are not telling the true story of Viet Cong and American losses.

Sydney Sun writer Pat Burgess, who covered the war in Viet Nam for six months, writes in The Sun today:

"No one in Saigon believes the kill rate given by American briefing officers daily in their briefings. Subterfuges of American public relations officers in Viet Nam now are aimed not at concealing American losses from the enemy but at making them less stark on American eyes at home."

Police In Vancouver Search For Girl, 8, Believed Abducted

VANCOUVER (CP)—Police here are searching for an eight-year-old believed abducted Monday afternoon.

Seven police units worked through the night in an attempt to find Lori Taylor, who also suffers from cerebral palsy. More units joined the hunt this morning, concentrating their search in the area around Vancouver General Hospital.

Officers directing the search asked householders in the district to search their yards and outbuildings for the girl. The youngster was last seen about 4 p.m. Monday by her brother Chris, 4.

The boy told his mother a "fat man" gave him a dime, told him to go home, then led Lori away by the hand. The children's mother, Mrs. Irene Taylor, said today the girl is subject to epileptic seizures.

unless given medication three times a day.

"She should have had her medicine at 6 p.m. Monday and again this morning."

"I'm worried sick that she's had a seizure by now," Mrs. Taylor said.

The girl's physician, Dr. L. J. Brunton, said there is a chance she could miss the medicine and nothing could happen.

"But it's hard to say."

Police conducted a door-to-door canvass of homes in the hospital area, and searched garages and vacant lots without finding any clue.

"We have very little to go on," a police spokesman said.

Mrs. Taylor said her son came home "on his own" and told her about the "fat man."

"Lori's always wandering off and she's such a friendly girl," Mrs. Taylor said.

Oil Crisis Near End

VANCOUVER (CP)—The oil workers union Monday night announced settlement of its dispute with six major oil companies and expressed hopes of reaching agreement with the seventh, British American Oil Co.

Fred Goddes, president of Local 9-001 of the Oil, Chemical and Atomic Workers Union (OCA), said a membership meeting approved the signing of individual contracts with Imperial, Standard, Shell, Texaco, Home and Pacific Petroleum.

He said the contracts will serve as models for the industry across Canada.

The contracts would contain an addendum covering the main point in the union's dispute—job security in the face of automation—a point which at one time threatened to precipitate a general 48-hour work stoppage across the province.

Mr. Goddes said the job security and other issues remain to be resolved with B.A., the first company struck by the union following a government-supervised strike vote three months ago.

The union later went on strike against an Imperial-controlled plant.

Missing 13 Believed Dead

MANILA (AP)—Two floating parts of an oil rig which capsized while under tow last week, with the apparent loss of 13 lives, are being towed to shore for inspection.

Ernest James McKeever, 25, of Calgary, was believed to be the only survivor from the rig which capsized last Wednesday in the South China Sea. Terry Ursulak, 25, of Edmonton, also was aboard the rig.

A spokesman here said no trace has been found of the 13 missing men and they are considered lost.

The Shell Oil company spokesman said two positions of the drilling rig will be towed to Port Point, a seaside resort 130 miles north of Manila on the west coast of Luzon.

Also lost were the third position and the superstructure of the platform, which contained the living quarters.

The 9,500-ton rig broke and capsized while being towed by the Dutch tug Willem Barredas. A Hong Kong tug, the Tai Koo, was assisting the Willem Barredas in the salvage operation.

The trial is in its fourth week and in its 16th sitting day.

The bodies, it was announced, all wore field packs," Burgess wrote. "But there was no mention of weapons. In fact only three of the bodies had weapons."

"On more sober examination the bunker was almost certainly a Viet Cong hospital—and mortuary."

Planned Growth Urged For City

TRIBUTE PAID KELOWNA MAYOR FOR SENSE OF DUTY AFTER LOSS

Mayor R. F. Partin, whose mother died in a fire early Monday, showed up for the regular meeting of city council Monday night, and was paid tribute for his devotion to duty.

Mrs. Irene Partin, 64, died in the family home shortly before 6:30 a.m., despite efforts by the mayor to save her life.

Ald. D. A. Chapman called for a moment of silence in her memory after saying: "As before, you again merit our admiration for your devotion to duty... you have proved it once again tonight."

Council, with year-end approaching, is faced with a heavy work load, and the mayor took an active part in most discussions Monday.

He was visibly moved at the tribute.

Governor Promises To Heed Race Riot Report's Warning

LOS ANGELES (AP)—Governor Edmund Brown of California says he'll try to implement a critical commission report that warned of future race violence worse than the rioting at Watts last August unless the "explosive" conditions under which Negroes live are improved.

What's more, Brown said as he accepted the 161-page study, he'll call the commission back in six months so it can check progress.

But considerable unfavorable reaction also greeted the report which said that the rioting at Watts last August was the result of a "concentration of explosive conditions" under which Negroes live.

The commission proposed "expensive and burdensome" programs in job development, education and law enforcement to prevent a recurrence of the fire-bombing, gunfire and looting that left 34 persons dead, 1,022 injured and property losses estimated at more than \$40,000,000. More than 300 buildings were destroyed and 600 damaged. A total of 3,352 persons were arrested.

Orderly Boundary Expansion Theme Of Industrial Report

Expansion of city boundaries in an orderly fashion—in the development of Kelowna, says a report prepared by an eastern consulting firm.

The report, by Alexander Baptist and Associates of Point Claire, Que., was tabled Monday night by Kelowna City Council.

The 13-page report was prepared without fee by the management firm, which later hopes to be commissioned for a detailed analysis of the area.

In general, it calls for the city to decide for itself whether to continue as a resort, educational and institutional area with currently established industry, or:

—Augment the present situation with "a comprehensive diversity" of industry, business and finance.

In any case, the firm states, 10- and 20-year programs should be set up, stressing physical, economic and promotional planning.

Such a program should be presented in a brief to the provincial government, says the report, and the brief should stress the importance of planning control of the fringe areas adjacent to Kelowna's boundaries.

The need for three more senior city employees was also suggested, one each in the fields of city management, industrial planning, and industrial promotion.

"To establish a co-ordinated method of efficient operation council should appoint a chief administration officer, as provided for under the authority of the municipal act."

The officer, in effect a city manager, says the report, should be responsible to council for all matters pertaining to co-ordination of functions of city departments. He should also act as "official spokesman" for the municipality on behalf, and in accordance with instructions and policy of council.

Safe Driving Week Of 1965 Heads To Deadliest Toll Ever

By THE CANADIAN PRESS

Canada appears headed for the deadliest Safe Driving Week on record.

The count of road deaths across the country rose to 70 at the end of the sixth day—equalling 1963's seven-day tally, which was the worst in the last five years. Eight deaths were reported Monday.

The Canadian Highway Safety Council said before the start of the week, Dec. 1-7: "It is possible to reduce the death toll to fewer than 50 for this special week. . . . Weather, watchfulness and increased attention by all drivers and walkers could bring this down to 25."

The figure of 25 was exceeded last Friday with a three-day total of 27 deaths. The four-day total at midnight Saturday was 53, breaking the council's less optimistic figure of 50.

Sunday's count of nine brought the five-day total to 62, breaking the nine-year average of 57 and the total for all the last five years except 1962.

Ontario was the hardest-hit province. Monday's count of three brought the province's six-day total to 32. The council hoped for seven-day figure for Ontario was 17.

ST. DONAT, Que. (CP)—Provincial police are looking for three gunmen who fled with \$10,500 in bonds payable to bearer and \$50 in coins after breaking into the home today of Mrs. Arthur Simard, 73, in this community 70 miles north-west of Montreal.

Canadian LAC's Murder Trial Opens

ZWEIBRUECKEN (Reuters)—LAC Edward Ziesmann, 28, of Emerson, Man., went on trial before a general RCAC court martial today, charged with the murder of his wife and two young daughters.

Laos Appeals "Help Us Oust Reds"

UNITED NATIONS (CP)—Laos appealed to the Soviet Union Tuesday to help throw North Vietnamese infiltrators out of Laos and guarantee the neutrality of that country.

Ottawa Man Held In Stabbing Death

TORONTO (CP)—Douglas Booth, 36, of Ottawa, was arrested today and charged with the capital murder in the stabbing of an elderly Ottawa woman last Dec. 1. The body of Louise Bowman, 73, was found in her Ottawa apartment clad only in a housecoat. A ring, two \$20 bills and the dead woman's car were reported stolen.

De Gaulle Will Stand

PARIS (CP)—President de Gaulle agreed today to remain a candidate for the run-off vote in the French presidential election.

A spokesman at the presidential palace made the announcement after de Gaulle arrived back in the French capital.

JUDITH TODD ... so far, so good

No Harassment Reports Judith

LONDON (AP)—Judith Todd reported in a letter received today from Rhodesia that she has not been harassed by the breakaway Rhodesian regime.

"So long as the press take an interest in my whereabouts, the government is reluctant to touch me," she wrote the teachers of a London school who had written to her in support.

Miss Todd, daughter of former Rhodesian prime minister Garfield Todd, left London last month for Rhodesia. She said she wanted to point out the difficulties of white Rhodesians as herself who refuse to accept the white-minority government of Prime Minister Ian Smith and remain loyal to Britain.

How to float gently down on the lunar surface is one of the most complex problems facing both the Soviet and American space programs.

It cannot be simulated on earth because the moon's gravitational pull is so much less than earth's. A lunar landing system can be tested only on the moon.

Great Space Doubleheader May Be Speeded By One Day

HOUSTON, Tex. (AP)—Astronaut Frank Borman maneuvered the Gemini 7 spacecraft into a new orbital pattern today—a preliminary move toward the historic, 17,000-mile-an-hour meeting of two American spacecrafts in the skies.

The rendezvous being rushed to Kennedy, Fla., could be achieved Sunday—a day earlier than planned in this most ambitious of U.S. space adventures.

Gemini 7 began its 45th orbit at 12:48 p.m. EST.

Between Australia and Canton Island over the Pacific Ocean, as Borman and his co-pilot James Lovell Jr. hurtled along in the 44th orbit of their 14-day marathon journey, Borman fired his aft thrusters for 16.5 seconds.

This apparently succeeded in boosting the speed of the spacecraft by some 12 feet a second and raised the low point of its elliptical orbit to 145 miles from 138 above the earth. The high point was lowered to 196 miles from 199.

A second firing later will bring the Gemini 7 into a circular orbit 185 miles out and place it in position for the pursuit by Gemini 6.

Navy Capt. Walter M. Schirra and air force Maj. Thomas P. Stafford originally were scheduled to blast off next Monday. But at Cape Kennedy, Fla., both rocket and spacecraft crews were running 24 hours ahead of schedule. A Sunday launch became a strong possibility.

The Soviet news agency Tass said: "As the station approached the moon a complex check of the functioning of the soft landing systems was made. The check showed the station's systems were functioning normally at all stages of the landing, except the final one."

NO TAX RELIEF FOR SECOND WIFE

KUALA LUMPUR (Reuters)—Two wives are a luxury, says a Malaysian Finance Minister Tan Siew Sin, so you can't expect to get tax relief for the second one.

A second wife is not only a distinct luxury, it is a great pleasure, and if you can afford it, you might as well pay for it, he told Parliament today.

A group of members proposed tax relief for second and succeeding wives.

Imports Far Surpass Exports But Retail Sales At High Level

Imports far surpass exports, use, municipal services and economic planning can be based on long-term objectives.

The report says there appears to be limitations at present in Kelowna's industrial planning—and the blame is laid at the feet of the provincial government.

It says the natural assets of Kelowna are ideal for such achievement "but a lack in long term planning, and deficiencies in the provincial legislative planning policy have opposed such achievement."

"Annexation intentions for 1965 will provide an additional 150 acres, more or less, to the existing industrially-zoned land."

"However, this is a repetition of 'sporadic' development unattractive to industry, and a retardant to the stable growth of a self-sufficient and prosperous community."

Council will study the report this week and discuss it later.

CAIRO (Reuters)—Twenty-five persons were accused today of attempting to overthrow the Egyptian government by force.

Fourteen of them also were alleged to have plotted to assassinate President Gamal Abdel Nasser and other officials.

The other 11 persons were alleged to belong to the banned Arab Communist Party and to have plotted to establish a "People's Republic of Egypt."

The indictments said those in the group of 14 include two retired generals and two retired colonels while the other group contains two army colonels, one of them retired.

Both plots were said to have been discovered in July this year, although that involving the alleged Communists had started in 1964 and the other in 1963.

It was stated the accused would be tried by the Supreme State Security Court, but no date was given.

Britain Recognizes Regime Of Mobutu

LONDON (AP)—The British government has decided formally to recognize the newly-krowned Congolese government over Joseph Mobutu, which seized power Nov. 25. Britain's act of recognition is likely to take place in the next week or so.

Papal Pledge For Action On "Unfinished Business"

VATICAN CITY (AP)—Pope Paul proclaimed the last four decades of the Vatican ecumenical council today and said the questions they don't answer, such as birth control, will not be put aside after the three-year-long council ends Wednesday.

Bishops of the Roman Catholic Church took final formal votes on each of the decrees in a public council session in St. Peter's Basilica. All were approved and controversial documents on religious liberty and modern world problems received bigger majorities than in earlier working sessions.

The declaration on religious liberty and a 2,000-word statement on modern world problems — denouncing nuclear warfare and keeping open the question of birth control — were milestones for the Roman Catholic Church. They committed it to a more open, more accommodating relationship with the world around it.

WAY LEFT OPEN
The modern world statement did not alter Roman Catholic teaching on birth control but left the way open for future changes. Apparently alluding to this and other questions, Pope Paul said in a discourse:

POPE PAUL
... promises

"It quite a few questions raised during the course of the council itself still await appropriate answers, this shows that its labors are now coming to a close not out of weariness but in a state of vitality."

"In the post-council period this vitality will apply, God willing, its generous and

well-regulated energies to the study of such questions."

The council session was also historic in another respect. Pope Paul here and Patriarch Athanasios in Istanbul made simultaneous declarations canceling excommunications that led to the break between the Roman and Orthodox churches six centuries ago.

The religious liberty declaration was approved 2,300 to 19. A vote of 2,300 to 75 accepted the decree on modern world problems, titled "Pastoral Constitution on the Church in the Modern World."

In working sessions of the council, 231 prelates opposed the modern world document and 249 objected to the religious liberty declaration.

The other two decrees promulgated today were on mission activity, approved 2,304 to 5, and on the priestly life, approved 2,300 to 4.

The four council decrees rounded out the vast modernization plan produced by the council since Pope John XXIII opened it Oct. 11, 1962. They brought to 16 the number of documents issued by the council.

Two decrees are without precedent. Never in the past has the church dedicated a conciliar document to the declaration that all men have the right to worship as they please. Never before has an ecumenical council undertaken statements on problems of the secular world.

JOLLY ROGER MAY SOON FALL AS RADIO PIRATES GO ASHORE

LONDON (AP)—Britain's radio pirates may weigh anchor soon, head down the Jolly Roger and pound out their pop music on licensed with the government's approval.

Parliamentary Under-Secretary of State for the Home Office, Lord Hailsham, said today that the government is considering legislation against the unlicensed, unlicensed stations broadcasting from ships anchored outside British territorial waters.

"There is no future for pirate radio stations," Hailsham said, but he is believed in favor of local commercial broadcasting in Britain.

The Labor government, hopeful of boosting its tiny House majority by reducing the voting age to 18, can't afford to alienate millions of teen-agers by driving the pirates off the air.

Britain's only legal radio is the BBC. Commercial radio is illegal.

There are four main pirate stations—Radio Caroline, Radio London, Radio City and Radio 360—and several smaller ones. Some operate from abandoned army forts and rocky islands.

They hope that if commercial broadcasting is legalized, they will have a head start.

Labor Problems 'A Cloud' Across 1966 Says Gordon

Donald Gordon, CNR president, said Monday in St. John, N.B., labor troubles cast a cloud across the economic horizon of 1967. Mr. Gordon said in an interview "the big cloud is labor troubles on the horizon."

The outcome of large labor demands is "difficult to predict," he said. "Otherwise things are very promising for 1967."

B. K. Nehru, Indian ambassador to the United States, informed the U.S. Monday his country is introducing rationing to meet grave food shortages.

India wants to negotiate a new long-term agreement with the United States to obtain surplus American wheat.

Nagb Kadri, 21, of Detroit, waiving extradition proceedings, when he appeared in Toronto Monday, is to be extradited to the U.S. immediately. Kadri faces a murder charge in the death of his estranged wife's 18-year-old baby-sitter, Julie Pansica, in his wife's home in Detroit Nov. 1. He was arrested in Calgary Friday.

Attorney-General Bennett said Monday in Victoria a boost in Bank of Canada interest rates means a boom in British Columbia.

Mr. Bennett said the interest rate creates the risk of a dip in the general economy unless B.C. and other areas "produce more and sell more" abroad.

Premier Bennett of British Columbia said Monday in Victoria he will seek more money for universities and hospitals when he attends the annual conference of finance ministers in Ottawa this week. Mr. Bennett, who doubles as finance minister, said he will press for immediate decision on federal participation in the costs of higher education, because universities will be making up their budgets.

Mechanik Ryabov at Moscow's No. 6 taxi garage kept complaining about headaches. For years they bothered him. Moscow radio reported Monday surgeon Kolyarov operated on Ryabov and found a sunflower seed growing inside his ear.

The Queen Mother, 85, is under a doctor's care for laryngitis. She recovered from a bout of influenza only a week ago. A spokesman said the Queen Mother had a temperature but the attack was mild.

DONALD GORDON
... hard to predict

Michael Stewart, British Foreign Secretary, reports complete lack of progress with the Russians in organizing joint moves to end the war in Viet Nam.

Mrs. Nicole Alphonse, one of the world's most elegantly dressed women, will join the Pierre Cardin fashion house in Paris to help bring haute couture within the reach of more women.

Cardin said Monday night Mrs. Alphonse, wife of the former French ambassador in Washington, will become his firm's publicity director.

James Cameron, a leading British newspaper man just back from a visit to Hanoi, reported today the North Vietnamese claim they will never talk with the Americans. Cameron's copyright report was featured on the front page of the London Evening Standard, which said he was the first non-Communist Western correspondent to visit North Viet Nam in recent months.

The Queen Mother, 85, is under a doctor's care for laryngitis. She recovered from a bout of influenza only a week ago. A spokesman said the Queen Mother had a temperature but the attack was mild.

Saigon Buildings Shudder As Viet Cong Hideouts Hit

SAIGON (CP)—Buildings shook and windows rattled throughout Saigon today as U.S. jets pounded Viet Cong hideouts on the outskirts of the South Vietnamese capital.

First reports said two bunkers and two Viet Cong buildings were destroyed during the attack. Photos of the light tactical F-4 "thunder fighters" reported a secondary explosion from one of the targets.

Only a few hours earlier, late Monday night, South Vietnamese airmen took a night raid with an unknown number of guerrillas in the same area, eight miles east of the center of Saigon and within the boundaries of the city.

NINE KILLED
A U.S. military spokesman, reporting the results today, said nine Viet Cong were killed and six captured during Monday night's engagement. The airborne unit, supported by U.S. helicopters, suffered light casualties.

Earlier Monday, also in the same area of the city, a government unit found and destroyed 20 bunkers.

Military engagements in this class in the heart of South Viet Nam's capital city are rare, although terrorist activities are common. Several gun fights between police and Viet Cong guerrillas have been reported in the last few months.

PREMIERE MAY INCREASE
A government military spokesman said today it was apparent the Viet Cong "aimed at increasing its pressure in the area surrounding the capital by attacking outposts."

It was expected terrorist activities would intensify throughout the center of Saigon in the next few weeks, with more bomb attacks like the one that tore apart a U.S. hotel four days ago, killing 10 and wounding 137.

As reports of Viet Cong strikes around the country continued today, a U.S. spokesman said the bodies of 23 guerrillas have been counted since the fierce weekend battle near an abandoned rubber plantation south of here.

About 600 men of the U.S. 1st Infantry Division were ambushed by a heavily-armed Viet Cong force of about the same size. U.S. casualties were described as moderate.

FIVE DAMAGED SHIP
At sea, the 75,700-ton aircraft carrier Kitty Hawk remained on station off the Vietnamese coast to launch her jet fighter-bombers against Communist targets despite a fire that threatened her for three hours Monday. Two sailors were killed and 29

persons injured when fire broke out below deck while the carrier was taking fuel from a tanker.

B-52s from Guam bombed targets in the central highlands, where the helicopter-equipped U.S. 1st Air Cavalry Division faces heavy Viet Cong and

North Vietnamese concentrations. The planes also unloaded their bombs on sites near the Cambodian border.

U.S. officials have long suspected that Communist troops are using Cambodia as a sanctuary for strikes against South Viet Nam.

Three White Men Go On Trial Charged In Minister's Death

SELEMA, Ala. (AP)—The third trial within two weeks in Alabama as the result of racially-related killings begins today when three white men go on trial for the slaying of Rev. James J. Ray.

Two ministers, subpoenaed as prosecution witnesses, were accompanying Ray the night of March 9 when they were attacked here by several white men. Ray, 36, a Unitarian minister, was hit with a club and died two days later.

All three had taken part in a Negro voting rights march. Blackford McLeod, the prosecutor, said he had summoned Rev. Orville F. Miller of Boston, where Ray lived, and Rev. Clark Olson of Berkeley, Calif., the slain minister's companions. They were struck in the attack.

Called to trial on first-degree murder charges were William Stanley Hoggie, 37, a salesman, his brother, James O'Neal Hoggie, 31, an auto mechanic, and Elmer L. Cook, 42, manager of a novelty company.

A fourth man, R. B. Kelley, 38, who was arrested but not indicted, also has been subpoenaed as a prosecution witness.

Kelley and the three defendants have been charged under a federal law with conspiracy to violate the civil rights of Ray and his companions. Trial dates have not been set for the federal charges.

In the last two weeks a white jury at Anniston convicted a white man of murder in the shooting death of a Negro, and another jury at Montgomery convicted three Ku Klux Klan members of criminal conspiracy in connection with the slaying of a white civil rights worker.

Call To "Get Rid Of Quebec" Faces B-B Probe In Edmonton

EDMONTON (CP)—A call for Canada to "get rid of Quebec" by 1987 faced the royal commission on bilingualism and biculturalism today as it approached the end of a two-day public hearing.

A brief from the Edmonton branch of the 25,000-member Canadian Protestant League said:

"The Roman Catholic Church will not allow Quebec to stop making demands on the rest of Canada."

"There will be no peace until Quebec is out of Canada. Quebec is a liability to the rest of Canada. The plan is to make

Canada a part of de Gaulle's French empire."

Five members of the commission sat here and another five held a one-day hearing at Regina Monday. The commission sits at Winnipeg Thursday and Friday and begins its last public hearing at Ottawa next week.

The 45-member branch of the interdenominational Protestant League says in its brief Quebec receives more money from the federal government than it pays to Ottawa but still demands more.

"A Confederation in 1987 without Quebec would be the beginning of a new Canada which would go forward in co-operation with each other and the federal government."

A University of Alberta Students brief urged federally-supported study centres for second languages. Such study should start at an early age.

The brief says that with western news media tending to "ignore" all but sensational events in Quebec, westerners have the misconception that Quebec is "the land of the priest-ridden, habitant family."

Monday, the commission heard appeal for a French university in Western Canada, a co-ordinated national program for teaching second languages and increased financial aid for such teaching.

The French Canadian (Federation) of Western Canada and the French Canadian Association of Alberta also called for more French broadcasting in the West and for more teacher exchange.

The Alberta group said there should be centralized bilingual schools established in Alberta operated with federal assistance.

AROUND B.C.

Downpour Record Tied

VANCOUVER (CP)—Vancouver, noted for its rain, has tied a record in that department. Weather office officials said almost a fifth of an inch of rain fell between 6 and 8:30 a.m. Monday tying the previous half-hour record of Dec. 12, 1953.

CONCILIATION BOUGHT
VANCOUVER (CP)—Vancouver's civic outside workers have asked for conciliation following a breakdown in talks with city officials on their demand for a 75-cent hourly wage increase in a new contract.

BOTTLE THROWER
VANCOUVER (CP)—RCMP seek a man who threw a beer bottle through the windshield of a truck driven by L. Klusack of Dawson Creek as it passed along the road several miles west of here. Klusack was treated for facial cuts.

VICTIM IDENTIFIED
KAMLOOPS (CP)—A man killed Friday when a pile of lumber fell on him near a house on the north shore of Kamloops Lake has been identified as Edward Mitchell Kilminster, 34.

ROBBERY BOUGHT
VANCOUVER (CP)—A police alarm is out for a gunman who escaped with an estimated \$1,400 in cash in the holdup of a downtown branch of the Canadian Imperial Bank of Commerce just before closing time Monday.

NEW HIGH-RISE
TRAIL (CP)—A new \$1,500,000 high-rise apartment building is to go up in this smelter city. It will be a two-phase project with the first section being constructed next spring and the second at a later date.

WATERFOWL REFUGE
VICTORIA (CP)—Purchase of 50 acres of privately-owned waterfowl habitat at Haneson Lagoon on the north tip of Vancouver Island was announced by Recreation Minister Wiersma. He said along with other lands previously reserved, an important waterfowl refuge could now be established there.

Commonwealth Plea Made
WELLINGTON, N.Z. (Reuters)—British delegate Bernard Braine today appealed to the British Commonwealth meeting here to arrive to hold the Commonwealth together.

Braine, Conservative member of Parliament, called for urgent reforms in conference procedure and more continuity in the work of the association's governing general council.

"Unless we are so constituted that our collective views influence a respective Parliaments, and that governments listen carefully to what we have to say, our usefulness is limited and may actually diminish," he warned.

"If Commonwealth governments continue to fall out with one another, as some of them have been doing, or grown indifferent to the interests of the family—as a whole—the Commonwealth will quickly die and something of unique value will have been lost to mankind."

Kenyan delegate James Myamweya said he wonders if Britain has given up responsibility for taking the initiative in world and Commonwealth affairs.

"There is nothing to learn from the mother of the Commonwealth," he said. "Britain is responsible for leadership and when leadership is not forthcoming, we have the right to point it out."

Accused Krebiozen Doctor Denies Taking Compensation

CHICAGO (AP)—Dr. Andrew C. Ivy, on trial on fraud charges in connection with his work with krebiozen, said Monday he received no compensation during his experiments with the drug taken by some cancer sufferers.

He also denied ever serving as a registered agent for krebiozen, as alleged by the U.S. government in its 42-count indictment against him and three others.

Dr. Ivy, 72, former vice-president of the University of Illinois, said the drug had been called Substance X before it was named krebiozen in January, 1951. In March, 1951, he added, the Krebiozen Research Foundation was established in Chicago and he served as its president from April to December, 1951.

In the group that established the foundation, Dr. Ivy said, were Dr. Stevan Durovic, discoverer of the drug, his brother and financial backer, Marko Durovic, a lawyer, and John S. Boyle, now chief judge of the circuit court in Chicago.

The Durovic brothers and a general practitioner, Dr. William F. P. Phillips, are co-defendants with Ivy in the trial that has been in progress since April.

TODAY'S STOCK QUOTATIONS

TORONTO (CP)—Stocks rebounded from Monday's sell-off in moderate trading today at the Toronto stock exchange.

Bank issues remained soft but lower were fractional with Royal down 1/4 to 70 1/2, Montreal 1/4 to 58 1/2 and Nova Scotia and Toronto-Dominion 1/4 each to 70 1/2 and 60 1/2.

Industrials were modestly improved with Massey-Ferguson ahead 1 to 33, Algoma 1/4 to 50 1/2, Westcoast 1/4 to 23 1/2, Moore Corp., 1/4 to 78 1/2 and Quebec Natural and Trans-Canada Pipeline 1/4 each to 13 1/2 and 36 1/2.

Base metals, which dipped sharply Monday, were strong with Hudson Bay, Noranda, Inco and Cominco all climbing 1/4 to 75 1/2, 50 1/2, 97 1/2 and 48 1/2 respectively, and Falconbridge 1/4 to 100 1/2.

In western oils, Place added 1/4 at 13 1/2 and Canadian Export Gas 2 cents to 2 1/2.

Among speculative mines, Maybrun was the featured issue, gaining 7 to 32 cents on solid volume. D'Eldona slipped 3 to 96 cents and Donalda 1 to 30 cents.

On index, Industrials advanced .20 to 163.94, golds .22 to 160.00, base metals .18 to 83.08, western oils .24 to 100.20 and the TSE index .20 to 154.52. Volume at 11 a.m. was 1,118,000 shares compared with 1,731,000 at the same time Monday.

Pollution Chief Roasted Over Meeting Statement

KELOWNA DAILY COURIER
CITY PAGE

Tuesday, Dec. 7, 1965

Page 3

'No Problem' In B.C.? City Takes Strong Exception

City council Monday took steps to clean up its own yard, then fired a withering blast at the chairman of the B.C. Pollution Control Board for statements attributed to him.

Council also called on the Union of B.C. Municipalities to press for more anti-pollution legislation.

Aldermen approved in principle a preliminary draft of the proposed city industrial waste bylaw. Later they heard a report from Ald. L. A. N. Patterson, who attended a recent conference on water pollution in Vancouver.

Among those at the meeting in Vancouver was C. J. Keenan, chairman of the provincial board, and a senior civil servant.

Ald. Patterson quoted Mr. Keenan in part: "Pollution problems in B.C. do not exist. We are lucky in this respect. Pollution is insignificant in B.C. except in the Columbia River, and this will be cleaned up soon. . . . responsibility for pollution control goes back to municipal councils."

CALL FOR CENSURE
Ald. A. R. Pollard immediately called for a motion of "censure" against the statement, which Mr. Keenan for the statements, calling them "irresponsible and poorly researched."

Mayer R. F. Parkinson suggested—and council agreed—that Mr. Keenan and the board should be written that council was on record as being critical of the statements which the mayor called "negative and understated."

Ald. D. A. Chapman said he was surprised and disappointed at the remarks attributed to Mr. Keenan.

NOT ENOUGH
Ald. J. W. Bedford, who attended the same Coast meeting, said the B.C. Pollution Control Board budget, \$25,000 this year, was not enough for one man, maybe a stenographer and postage stamps.

Ald. Bedford quoted Municipal Affairs Minister Dan Campbell as saying proposed regional districts might be the answer to water and air pollution within their districts. "This is fine," Ald. Bedford said, "but let the government do something. Let them spearhead it. I'm sure the municipalities will go along."

Mayor Parkinson said even if regional districts were accepted, the district authorities would still be responsible for pollution control.

ALA RABBIT
Ald. Pollard said the Union of B.C. Municipalities has already discussed the matter at the executive level, and members were privately alarmed at what they called lack of government concern for pollution control.

He urged more action, and suggested council write the UBCM executive stating its views.

Council agreed. Kelowna's own trade waste bylaw was approved in principle, and will be discussed fully at a future council meeting.

ALD. A. R. POLLARD calls for censure.

He was reluctant to spend money for pollution control.

"The answer," he said, "is publicity, and lots of it."

TOURIST CONCERN
Ald. E. R. Water said the tourist industry and chambers of commerce should take an active part in promoting clean water "before it's too late, like it is in some parts of the United States."

"Pollution in the Okanagan hasn't caused any trouble like in the States," he said, "but if we are not careful the tourist industry could be wiped out."

Ald. Patterson reminded council of a meeting on the subject in Summerland Wednesday, to which municipal representatives have been invited from Okanagan-Similkameen communities.

"We'll have more facts then, and we can go after them (the government) but right now it is encouraging."

ALA RABBIT
Ald. Pollard said the Union of B.C. Municipalities has already discussed the matter at the executive level, and members were privately alarmed at what they called lack of government concern for pollution control.

He urged more action, and suggested council write the UBCM executive stating its views.

Council agreed. Kelowna's own trade waste bylaw was approved in principle, and will be discussed fully at a future council meeting.

Full House For Carol Concert; Two More Nights Scheduled

A capacity audience packed the Kelowna Community Theatre Monday to witness the first of three Christmas Carol concerts sponsored by the Inter-Church Music Society.

The next two programs are tonight at 7:45 p.m. and at the same time Wednesday.

Seating capacity at the theatre is 300 and people coming late found no seats available. Those people were turned to watch the concert from hastily-built seats on the stage. Estimates of the total audience were in the 1,000 range.

The Dr. Knox secondary school band under the direction of Miss J. Johnson opened the concert with two selections, Christmas and Christmas Eve.

Barry Patterson led a carol singing group following the Dr. Knox band.

The First Baptist church with Mrs. Elise Buzzell as director, presented three selections, including "Little Road to Bethlehem."

They were followed by the Evangelical church under the direction of Mrs. Mrs. Domes. The choir sang a selection from "Born a King."

Dr. Ivan Bessie directed the First United church choir in their selection of "Gloria in Excelsis Deo."

The Salvation Army band followed the collection and intermission with Capt. Keith Hall directing. The band played an arrangement of Christmas carols.

Other second-half presentations included numbers by the Immaculate high school, St. David's Presbyterian church choir, the Salvation Army Timorals and the Grace Baptist Church Male Chorus.

A massed choir under the direction of Barry Patterson ended the concert. Their two selections were "All Hail The Power" and "O Little Town of Bethlehem."

Mrs. Elise Buzzell was pianist and Howard Young, organist.

Jim Donald, secretary-manager of the Kelowna chamber of commerce, said today 300 ballots had been returned to the chamber office up to Monday.

The chamber is conducting a vote by mail ballot election for eight directors. Thirteen men are running for the 1966 executive committee.

Ballots must be in by 5 p.m. Dec. 14, with results to be announced Dec. 15.

W. R. Bennett was elected president and K. F. Harding, vice-president, by acclamation Nov. 30.

A total of 348 ballots went out to 453 member firms and individuals belonging to the chamber, Mr. Donald said. In 1964, 60 per cent of the ballots were returned.

Seeking re-election are W. T. J. Bulman, agriculturalist; T. A. Capozzi, vice-president and general manager, Kelowna Wines Ltd.; A. H. Carter, president and general manager, Carter Motors Ltd.; C. W. Gaddes, manager, Gaddes and Son Ltd.; J. G. S. Hirtle, partner, Interior Engineering Services Ltd.; W. A. Lougheed, general manager, Haug's Building Supplies Ltd.; R. P. McLennan, executive assistant to the president, S. M. Simpson Ltd.; Jim Stewart, partner, Rutherford, Bassett and Co.

Newcomers include Carsten Ose, manager, Bank of Nova Scotia; W. G. Kautson, partner, E. A. Campbell and Co. Ltd.; J. C. Pearce, Fillmore and Co.; D. G. Pratt, manager, Inland Natural Gas Co. Ltd. and R. J. Stranks, assistant manager, Bank of Montreal.

Postal Employees Alerted As Christmas Rush Begins
Employees at the Kelowna post office are rushing about their jobs, in frenzied preparation for the great increase in mail expected over the Christmas season.

W. J. Burgess, Kelowna postmaster, said staff is preparing for a 55 per cent increase in their daily mail volume.

"We have arrived at this figure from totals compiled over the past years," he said, "and are expecting to be rushed off our feet."

"We are contacting the National Employment Service for assistance in obtaining 40 extra employees to cope with the great increase. We do not take job applications at the post office, so people wishing to apply for jobs are urged to contact the employment office."

He said the increase in mail volume is expected to hit full force on Friday or Saturday.

"The first big rush in mail will be outgoing," he said, "as that is the way it always happens. People all decide at once to send their Christmas cards and letters, and we get hit by huge loads of mail."

"Our regular daily mail volume is approximately 15,000 pieces of mail, but during the Christmas mail season, this jumps to between 40,000 to 60,000 cards and letters a day."

The postmaster said the increase of incoming mail was expected to start about Dec. 18 or 17 and carry through to Dec. 22.

"When the incoming mail increases," he said, "extra men will have to be put on the mail routes in the city, in order to get it all delivered."

"The regular mail men just could not handle such a large amount of mail."

He said the number of parcels posted will also increase greatly.

"We can expect an increase of approximately 500 per cent in the number of posted parcels," he said, "bringing our daily volume up to approximately 1,500-1,600, UP, UP, UP."

Mr. Burgess said the total mail posted in Kelowna is expected to be up this year over last year, because of the increased population in the city.

"It will not be possible to get a completely accurate count of the mail this year," he said, "as many businesses have purchased postal meters, and we do not count that mail."

Kiwanis Members Travel To U.S.
Three members of the executive of the Kelowna Kiwanis club went to Okanagan, Wash., Sunday, to attend the fall training conference for Division Five, under the guidance of the lieutenant-governor designate.

Mr. and Mrs. Carl Briese, Mr. and Mrs. Fred Henderson, and Lloyd Green drove to the Washington city to receive instruction in the management of the affairs of their club for the 1966 season.

Mr. Briese, past president of the club, said each year the newly-elected executive attends the conference, and is given a short one-day course on club management.

He said 14 clubs from Revelstoke to Twisp, Wash., attended the conference.

Two Pay Fines In City Court
James Walter McCall, Moore Jaw, Sask., was fined \$350 in magistrate's court Saturday, when he pleaded guilty to an impaired driving charge. He was prohibited from driving for a period of one month.

Donald R. Falck, Strimel Road, Rutland, was fined \$100 and costs on a charge of failing to stop and give his name and address when required to do so. He pleaded guilty.

Rainfall In Store Says Forecaster
Rain is forecast for all interior regions of B.C. today and Wednesday. The Okanagan can expect continuing mild weather with light winds.

The thermometer climbed to a high of 40 and dipped to a low of 31 in Kelowna Monday. There was .05 inches of rain. A high of 41 and a low of 28 were recorded a year ago on that date.

The low tonight and high Wednesday for Penticton 32 and 45, Kamloops 30 and 45, Lytton 35 and 48, Cranbrook 28 and 40, Castlegar 32 and 42, and Revelstoke 30 and 40.

Vegetable Board Meets Dec. 16
The annual meeting of the B.C. Vegetable Marketing Board will meet in the B.C. Tree Fruits board room Dec. 16 at 9:30 a.m. Attending will be 20 delegates from 13 fruit growing districts in B.C.

On the agenda is election of three board members, discussion and resolutions and a report of operations for the past year.

Big White Rd. Plowed And Open
The road to Big White ski resort is plowed, the department of highways said today.

Rogers Pass and Allison Pass both have four inches of new snow. The highways are plowed and sanded. Motorists must have good winter tires or carry chains.

The road from Salmon Arm to Revelstoke has some slippery sections, sanded. District roads in the Okanagan are wet but otherwise good.

Musical Group Gets Green Light
Garfield McKinley, music supervisor for School District No. 23, has been given the go-ahead by school board officials for the formation of a Kelowna branch of Jeunesses Musicales.

An organizational meeting for the branch will be held in the band room of the Kelowna Secondary school, on Monday, at 8 p.m.

Jeunesses Musicales is an organization which was formed in Belgium 25 years ago, and works to further young musicians in their quest for excellence through scholarship.

The Canada Council of the organization donates \$100,000 annually toward scholarships for the cause.

Slippery Messes To Be Studied
The city engineering department will investigate complaints of mud being deposited on city streets from the wheels of vehicles leaving two lots.

Ald. A. R. Pollard said Monday construction vehicles involved in work at the secondary school were carrying the mud out onto Harvey Ave., where it fell to the pavement, making a slippery mess.

He also said cars parked in the vacant lot at Ella and Queenway were causing the same trouble.

Annual Christmas Jamboree Tickets In Demand This Year
Tickets for the Kelowna Chamber of Commerce annual Christmas Jamboree are going rapidly.

R. J. Stranks, chairman said today.

"We had 350 printed and two thirds have been sold to date," he said. "Anyone wishing to make up a party and attend should pick up their tickets now."

"Last year all the tickets were sold and we had a waiting list for cancellations."

The Jamboree will be held in the Kelowna Aquatic Centre, beginning with a social hour at 6 p.m. A turkey dinner will be served at 7:15 p.m., followed by entertainment and dancing.

Charles Pettman's orchestra will play from 9 p.m. to 1 a.m.

Slippery Messes To Be Studied
The city engineering department will investigate complaints of mud being deposited on city streets from the wheels of vehicles leaving two lots.

Ald. A. R. Pollard said Monday construction vehicles involved in work at the secondary school were carrying the mud out onto Harvey Ave., where it fell to the pavement, making a slippery mess.

He also said cars parked in the vacant lot at Ella and Queenway were causing the same trouble.

Fairylike Setting Enchants Dancers At Snowball Frolic

On Saturday evening the Kelowna Aquatic became an enchanting winter fairyland when the Ladies' Auxiliary held their big fund-raising project of the year, the ever popular Snowball Frolic.

The setting for the frolic had an air of enchantment to the

ball. Centering the tables that surrounded the Aquatic Ballroom and filled the veranda and lounge were jaunty little snowmen; on the walls were cedar boughs with smiling snowmen peeping through; in the lounge blue balloons clustered around the tops of the cedar wrapped

posts, and the centre post in the ballroom was wound with cedar and sparkling strings of blue lights. Behind the orchestra dais which was encircled with strings of lights, a silver star superimposed on a large white star edged with tinsel shone from a magic frame, composed of cedar and blue lights; Christmas trees of shining silver added to the enchantment of the scene, and from the ceiling hung clever blue, silver and white mobiles. The decorating conveners who, with the assistance of her committee, created this wonderland, was Mrs. W. A. Morrison.

Receiving the guests on arrival were Mrs. Victor Weider, convener of the Snowball Frolic and Mr. Weider; Mrs. Harold Denney, Lions Ladies' president and Mr. Denney; and J. E. Apsey, Lions president, and Mrs. Apsey. All three hostesses were charming in their lovely formal gowns. Mrs. Weider chose a princess styled formal with a bodice of black and white cotton lace topped a slim black crepe skirt. Mrs. Denney's graceful black crepe dress was accented with a floating black panel and she wore a corsage of red roses, and Mrs. Apsey's long slim skirt of dark brown velvet was worn with a long overblouse of gold, blue and bronze lame.

Dancing took place to the lively music of Bert Hill's Orchestra and among the many lovely gowns noticed on the dance floor was a charming green and gold brocade sheath, featuring an inverted V slit in front, worn with long white gloves by Mrs. Harry Crain; Mrs. Bruce Moffet was stunning in a red and gold brocade sheath with floating chiffon back panels; Mrs. D. C. Johnston wore a long slim skirt of peacock blue brocade with a matching jacket and a white brocade shell top; Mrs. Sydney Cook's dress of dark brown velvet was accented with fullness from the high waistline, and Mrs. L. Laycock's pretty picture dress of rose pink brocade with its charming portrait collar offset the many shades of blue and bluish greens that predominated the scene.

Mrs. Harry Truss looked especially smart in a fitted silk sheath dress in a dramatic black and white pattern, and Mrs. J. R. Lewiswhite was charming in a long black velvet skirt topped with an overblouse of gold lame. Mrs. W. T. J. Bulman's gold and cream dress of waffle brocade was exquisite, and Mrs. Henry Tostenson wore a most effective dress of green peau de soie with a bodice of printed white lame. Mrs. Walter Hall was smart in a lovely sheath of embroidered brocade in an old gold shade, and Mrs. H. M. Baird's sea green crepe dress was beaded with gold at the waistline and featured fish-tail panels at back.

Mrs. R. C. Parkes' classic black sheath was accented with a single red rose at the waistline; Mrs. Charles de Puyffler's peau de soie skirt was bell shaped and topped with a shell of avocado green; Mrs. Robert Emble was lovely in a dress of green and gold brocade styled on empire lines and Mrs. Roy Tanemura was stunning in a fitted sheath of black and gold brocade.

Following the very successful ball a number of hosts entertained friends at delightful supper parties held at their homes.

COLLECT OLD BIBLES
SACKVILLE, N.B. (CP) — Mount Allison University has obtained a "Breeches Bible," the English translation of 1800 which calls Adam and Eve's fig-leaf clothing "breeches." Pine Hill Divinity Hall, in Halifax, bought for \$300 a copy of the 1611 King James printing of the Bible in English from a young railway worker who received it through a legacy.

ANN LANDERS

Travelling Service Men Have Their Troubles

Dear Ann Landers: Why don't service men and women get treated better by the airlines? They risk their lives for our country and should be treated like privileged characters. Instead they get kicked around.

Our nephew who is in the Navy came home for a few days. He couldn't make reservations because he was traveling on the military discount. They kept him on standing for 12 hours and he arrived home exhausted.

Service men and women are the last to board the plane. They can get on only if seats are left over. Furthermore, they can be put off at any stop if a commercial passenger wants to get on. I've seen boys in uniform tear down when they were ordered off a plane halfway home. These poor kids must then wait for a plane with empty seats. Is this fair?—DISGUSTED AUNT

Dear Aunt: The military discount is an arrangement between the airlines and the government, designed to accommodate the maximum number of service people at the most economical rates.

Service men and women who travel at a substantial saving are told in advance that they must not risk it. If they don't want to risk it, they should pay the commercial rate and be assured of a seat.

Dear Ann Landers: My mother died five months ago. Her last wish was that I take my 25-year-old brother into our home. My husband never got along with Kirk, but it was he who said, "Yes, Mother, we will take Kirk. Don't worry."

Kirk agreed to pay us \$17 a week for room and board and laundry. (He makes \$88 a week.) He stopped paying after the first two months and we haven't seen a dime since.

Two months ago he took our car without permission. He wrecked it and now we are without a car.

Our two sons are afraid of Kirk. He's awfully mean to them. He wears my husband's clothes and has burned holes in our furniture because of his careless smoking habits.

I could write a book, but what's the use? My husband has been a saint but he's ready to leave if I don't get Kirk out of here. My mother's memory haunts me. After all, we promised. Please tell me what to do.

A WRECK
Dear Wreck: The Bible says you are your brother's keeper, but it doesn't say you should keep your brother until he burns your house down and destroys your marriage.

You fulfilled your promise to your mother when you took Kirk in. He made the arrangement impossible because of his miserable behavior. Throw the bum out.

Dear Ann Landers: Many people write to complain about a mother-in-law. My mother-in-law is a peach. It's my father-in-law I can't stand.

This man has never been wrong in his life. He is an authority on everything — knows better than the President of the

Search For Missing Husband A Failure

SEATTLE (AP)—The Seattle wife of a former Canadian consul here is due home here in a day or two after a heartbreaking unsuccessful search for her missing husband which took her to Hanoi, in North Viet Nam, the Seattle Times said today.

Reports indicate Mrs. J. Douglas Turner was able to stay five days in Hanoi as possibly the first American woman to enter that area in some years, the newspaper said.

Turner, 30, stationed at Hanoi since June at Canada's representative on the International Commission for Supervision and Control in Japan, disappeared Oct. 18 on a commission courier aircraft between Vietnam, capital of Laos, and Hanoi. Thirteen persons were lost.

Mrs. Turner left here Nov. 16. Her trip took her to Laos and an unprecedented visit to Hanoi was arranged by the commission, the newspaper said.

Before leaving she said she was given little hope of entering North Viet Nam but told an interviewer:

"I have to know. I want to try. I think I can do it."

She travelled at her own expense and left her children, Jack, 4, by a previous marriage, and Jean Margaret, six months, with friends. She is the daughter of Seattle attorney and Mrs. Paul A. Gooding.

Turner's parents, Mr. and Mrs. John H. F. Turner are on their way here by ship from their London home to visit her.

Turner was Canadian consul here from July, 1962, until his assignment in Hanoi.

He met his wife-to-be while consul here and they were married in 1964.

FOUR SEASON PLAY FOR GOLFERS TOO

A number of enthusiastic ladies' threesomes took advantage of the sunshine on Monday for a winter's game

of golf. Pictured above as the tees off is Mrs. D. E. Oliver (right) while her partners Mrs. W. W. Hinton (left) and

Mrs. T. McClelland gaze down the fairway as they await their turn.

WOMEN'S EDITOR: FLORA EVANS
KELOWNA DAILY COURIER, TUES., DEC. 7, 1966 PAGE 5

Women AROUND TOWN

Co-hostesses at a most delightful coffee party Saturday morning were Mrs. R. P. Walrod, Mrs. Jack Buckland, Mrs. William Green and Mrs. C. E. Metcalfe. The party was held in the Mountain Shadows Regatta Room which was beautifully decorated in the Christmas theme, the conversation piece being the very attractive refreshment table which was covered with a red and silver cloth trimmed with large white and silver poinsettias and centred with a holly arrangement in a translucent green bowl flanked by two three-branched silver candelabra bearing white candles. Pouring coffee were Mrs. R. J. Foote, Mrs. J. B. Lander, Mrs. Ernest Donnelly and Mrs. Jack Treadgold, and serving the guests were Mrs. J. A. Finucane, Mrs. W. Howard Bearlito, Mrs. D. S. Buckland and Mrs. C. D. Buckland.

Among the many hosts entertaining guests at their homes either before or after the fabulous Snowball Frolic, were Lions president, James Apsey and Mrs. Apsey; Lions Ladies president Mrs. Harold Denney and Mr. Denney; Dr. and Mrs. Alan McIntosh; Dr. and Mrs. Harry Webb; Dr. and Mrs. Robert Emble; Mr. and Mrs. Douglas Johnston; Mr. and Mrs. Arthur Fay; Dr. and Mrs. J. O'Neill, and Mr. and Mrs. John Evans of Rutland.

Newcomers who have recently taken up residence in Kelowna are Mr. and Mrs. Harry Brown from Regina. Mr. Brown opened the Beiton Hearing Office in the city.

Spending a few days in Kelowna at the Mountain Shadows Country Club Lodge last week were Mr. and Mrs. Martin Reeves and Ralph Brown from Blackfoot, Idaho, who were on route home from Fort St. James.

Mrs. Frederick Kramer is leaving later this month for the Coast where she will spend Christmas and New Year's visiting her son Frederick Kramer Jr., who is taking a seven-month's hairdressing course at the Vancouver Technical Vocational School.

Kiwiana wives were the hostesses at a delightful farewell luncheon held at the Royal Anne Hotel on Thursday in honor of Mrs. Percy Perkins, who was presented with a silver spoon as a token of remembrance. Mr. and Mrs. Perkins are leaving Kelowna shortly to take up residence in Brentwood, Vancouver Island.

Recent arrivals in the Okanagan are Mr. and Mrs. Jack Gleason from Winnipeg who have taken up residence on Knowles road in Okanagan Mission.

Police Commissioner Is Blue Eyed Blonde

HACKENSACK, N.J. (AP) — The next commissioner of the 104-man Bergen County police department will be a shapely five-foot-five, blue-eyed blonde.

"I get a lot of ribbing but being a police commissioner is not strictly a man's job," says Mrs. Doris Mahalick, 41-year-old mother of two teen-age daughters.

"It'll be working in areas, such as juvenile problems and traffic safety, where a woman has just as much insight as a man," she explained.

As commissioner, she will be one step above Chief Charles LaPrete and directly responsible to the board of freeholders (county council). As one sergeant put it, "She'll be the ultimate boss."

Mrs. Mahalick, who assumes her new duties Jan. 1, is no novice when it comes to police administration. She also was the first woman police commissioner in her hometown of Wallington, N.J.

When she was appointed to the post in 1962, some local residents were apprehensive.

EXPECTED DRAPE
"They all expected me to start hanging drapes in police headquarters," she recalled.

But, instead of picking plaid upholstery for patrol cars, madame commissioner, during her one year in office, obtained funds to purchase badly needed electronic equipment and helped raise police salaries by an average \$1,200 — eliminating a morale problem.

Mrs. Mahalick comes to the post by virtue of a victory in the New Jersey state elections Nov. 8 as freeholder (county council). Her Democratic colleagues then named her chairman of the county's public safety committee, which makes her the police commissioner.

Throughout the freeholder campaign, Mrs. Mahalick was introduced as "the most beautiful candidate anywhere" — much to her despair.

"If I had been in a beauty contest, I'd have loved it," she said. "But while it was flattering, I thought it detracted from my candidacy."

PAST CENTURY MARK
Women were first employed by the U.S. government in 1861, by U.S. Treasurer Francis E. Spinner.

St. Michael And All Angels' WA Elects New Slate Of Officers

The Evening Branch of St. Michael and All Angels' Women's Auxiliary held its annual meeting on December 5 in the Parish Hall with the president, Mrs. A. E. Ruffie, in the chair.

Reports given at this meeting showed a very active and successful year with a healthy increase in membership. Resolutions, all of which were adopted, were: to the church committee, the Altar Guild, the Primrose Fund, and to a Home for Unwed Mothers at Kamloops. The proceeds of the sale of Christmas puddings was our contribution to the annual bazaar held in November.

Plans of good used clothing have been sent to Creston, and a Dorcas sale to an Indian school in Saskatchewan.

A Spring Bazaar Drive and Tea was held for the Senior Citizens, and a party and tea for the Little Helpers and their mothers. Social work has become an important part of our service, and many are the charitable acts performed by our members.

Archdeacon D. S. Catchpole presided over the election of officers with the following results: President, Mrs. Wm. Alton; vice-president, Mrs. J. Anderson; secretary, Mrs. E. M. Johnston; treasurer, Mrs. A. E. Ruffie; UTO secretary, Mrs. O. Curtis; Living Message, Mrs. J. R. Gales; social secretary, Mrs. D. Macdonald; Little Helpers, Mrs. D. C. Harbeck; prayer partner secretary, Mrs. V. Milne-Jones; Dorcas secretary, Mrs. Wm. Shugg; education secretary, Mrs. E. M. Jellett.

The retiring president thanked the members for their cheerful and willing co-operation during the past year, and the meeting concluded with the benediction by Archdeacon Catchpole.

Glowing Silver Pieces Give Sterling Service

By ELEANOR BOSS

Get out all your silver and be ready to show it off for the holidays. The gleam of sterling silver is a festive setting for buffet and dining tables—and many pieces need just a touch of opportunity to extend their use beyond the basic purpose of their design.

PERFECT CENTERPIECE
A large silver bowl is an extremely versatile piece. It makes a bright, perfect centerpiece for an arrangement of Christmas greens, ornaments or cut flowers. One of our friends uses a Paul Revere bowl to hold a charming arrangement of twigs and small branches dipped in hot starch solution and sprinkled with artificial snow.

Silver bowls are wonderful for parties and for mealtime. Silver has an amazing ability to keep hot things hot and cold things cold. Also silver bowls of different sizes can be put out together for both practical use and decorative effect. For instance, place crushed ice in the larger of two bowls; set a smaller one in the bed of ice and use it for fruit salad or ice cream. This is a particularly good idea for buffet service.

Silver bread trays, meat plates and sandwich plates can do double duty as table centerpieces for arrangements of fruit, nuts or candies.

Too many of us ignore our lovely silver for use on the breakfast table, but when you think of it, silver's just the thing to brighten the day's start, especially at holiday time. A silver gravy boat is just right for keeping maple syrup hot. At dinnertime, it gracefully reverts to its original use, or can hold cream or dessert sauces.

Serve scrambled eggs with a drift of chopped parsley on a silver sandwich plate and see if that doesn't wake up the family at the breakfast table. This plate is useful also for serving relishes.

WIFE PRESERVER
The pieces of silver, dry white fabric between sheets, should be put away in a box. Most don't freeze to the cloth.

**BURNING RECTAL ITCH
Relieved In Minutes**
Exclusive Healing Substances
Relieves Pain As It
Shrinks Hemorrhoids.

If you want satisfactory relief from "itching Piles"—here's good news. A renowned research laboratory has found a unique healing substance that promptly relieves the burning itch and pain—actually shrinks hemorrhoids. This substance has been shown to produce a most effective rate of healing. Its germ-killing properties also help prevent infection.

In case after case "very striking improvement" was noted, even among cases of long standing. And this improvement was maintained over a period of months!

This was accomplished by a new healing substance (Bio-Dyne)—which quickly helps heal injured cells and stimulate growth of new tissue. Now Bio-Dyne is offered in ointment and suppository form called Preparation "H". Ask for it at all drug stores—satisfaction or money refunded.

REDUCE YOUR INCOME TAX
You can cut taxes now on money you set aside for your retirement years, if you meet either of these two simple requirements:
1 You are not a member of a Registered Pension Plan;
2 You are a member of a Registered Pension Plan but your contribution is less than the maximum allowed for tax savings.

One other important thing. Your savings (in excess of any contributions to your employer's Registered Pension Plan) must be put into a "Registered Savings Plan"—the kind of plan you would buy from a life insurance company. And you must establish your Plan by March 1, 1966, for relief on your 1965 income tax.

If you are not a member of a Registered Pension Plan, the maximum allowed for tax savings is 20% of your earned income or \$2,500, whichever is less. If you are a member, the maximum allowed for your combined savings under both the Registered Pension Plan and Registered Savings Plan is 20% or \$1,500, whichever is less.

Why is a Manufacturers Life Plan the best way?
Because there's no guessing about the basic amount of money you'll accumulate or the basic lifetime income it will purchase when you retire. You have these figures in writing in your contract when you buy.

Moreover, you may purchase a participating contract and receive dividends in addition to the basic guaranteed benefits. For more information call your Manufacturers Life representative today or mail in this coupon. There is no obligation.

Please send me information about Registered Savings.

PROCEEDS FROM UNICEF CARDS AID URBAN PROJECTS IN THAILAND

The only playground for these children is the small space under their huts. They live in the slum at Trok Chan, Yanawa District, Bangkok. The government of Thailand has launched an urban project as part of a plan of the Municipality of Bangkok for the redevelopment of slum areas. In the pilot area

covering 35 acres in the Prakanong District, community development and self-help techniques will be used for housing improvement. In addition, health, education, vocational training and social services will be provided, especially directed to mothers and children. The United Nations Children's Fund

(UNICEF) provides equipment for the central workshop, for planning and laying out sites and for self-help construction. The United Nations Department of Economic and Social Affairs provides technical advice. The training seminar for self-help housing has just been completed with the help of an advisor from the housing section of the UNDESA.

Staff of the Housing Section of the Economic Commission for Asia and the Far East (ECAFE) is also participating in this project. UNICEF greeting cards may still be purchased in Kelowna at the United Nations Headquarters in the Newly New Shop on Bernard Avenue.

ARMSTRONG — The annual 4-H Achievement Contest was held Dec. 3 at the recreation hall with about 250 people in attendance.

This gala event was sponsored by the Armstrong-Spethhausen Chamber of Commerce; the catering by the United Church Women.

Reeve Foster Whitaker gave the welcoming address to the parents, children and guests, and thanked the leaders for their assistance.

Mayor John M. Jamieson praised the club for being so civic minded and said how effective it is for public relations.

"The leadership and training given is valuable," he said, "and it is heartening to know enough that we now have men and women in business and former 4-H'ers who are new leaders."

Jim Ryder, district agriculturalist said, "we are living in a dynamic society and 4-H activities emphasize particularly in our way of life.

"You are going to have to make a lot of decisions," he told the youngsters, "the training and leadership you gain from this club will assist you in deciding where you are going and what you are going to do."

PONTIAC, Mich. (AP)—Pontiac Osteopathic Hospital requested the resignations Monday of two staff physicians in connection with the post-surgery deaths of three patients last month.

All three, a young mother and two children, died after they were given what the hospital called a faulty mixture of anesthetics prior to operations.

The hospital administrator, Harry Whitlow, announced immediate resignations had been requested by Dr. Lloyd R. Goodwin, chief anesthesiologist, and Dr. Stanley E. Abrams, an anesthesiologist.

Goodwin, 33, a hospital staff member for three years and father of four, agreed to resign.

The victims of the anesthesia, described as a mixture of ether with the drug surital, were Mrs. Laura Covington, 34, Pontiac mother of two; Michael Ketchum, 13, Ferndale, and Kimberley Anne Brumel, 8, West Bloomfield township.

The hospital said, in violation of regulations, ether had been drained into a bottle containing surital, an anesthetic.

membership and general activities. "While the membership down somewhat this year, clubs with a total of 188 members, there has been a great interest shown and more the average enthusiasm and effort he said.

Exhibits this year ranged from the artistry at the PNE did very well. There were two gold watches won and five out of six were awarded trip out of province," he said.

KAMLOOPS VOICE

Sharon McArthur, a house economist from Kamloops spoke enthusiastically and said, "It is wonderful to see the community. The 4-H'ers have in the community."

Mavis McDwan spoke on the trip to New Brunswick. Harold Rogers and Allan Watson spoke on the trip to Toronto to enjoy together and the evening was highlighted with presentations of trophies and awards.

NEED 50 PER CENT MORE

At least 50 per cent more help is needed in the world by the year 2000 to avert malnutrition in developing countries.

During construction costs and an expenditure of Rs. 100 lakhs, the Government of Madras for the school construction has approved Rs. 1,00,00,000 worth of proposed school construction in S.C. Education Minister Pattabhi said Monday in Kanchi.

He said the money is required for 14 new schools in 15 of the province's 83 school districts and that about half of them have already been approved by the Government.

The remainder will be on the ballot in December municipal elections.

Both the number and value of tenders are substantially higher than usual.

"There were 52 in 1954 with a total value of Rs. 61,00,000,"

More curriculum changes from the 1959 report of the Chatterji commission were named as additional features in the

Gasoline Well Poses Mystery Downtown

ELIZABETH CITY, N.C. (AP)—Every day since June 22, firemen have pumped 16 to 18 gallons of gasoline from a hole a block from the centre of town.

The source of the petroleum fountain has yet to be found. Service stations and owners of storage tanks in the area report no losses.

Mr. Peterson gave the figures while visiting Misses Bloomer's primary school at Chase, about 11 miles east of here.

Mr. Peterson said the year's \$25,000,000 total does not represent the total needed in the three-year period for which the referendum are valid.

Portions of referendum approval in 1953 would be added to the over-all total.

It does not include expenditures for new or expanded vocational wings.

VERNON—The Junior Forest Warden movement is taking shape in the community of Monte Lake, where W. B. Bruck, Poudre River Fish Lumber Co. forester, has organized a Junior Forest Wardens' group. They meet weekly. Squad Leaders are Kenny Lani and Bill McLeod. The organization welcomes all school-age boys.

SAN FRANCISCO (AP)—Police used tear gas Monday to subdue an 80-year-old pensioner who went on a shooting spree when he didn't receive his government cheque. Police said James Lee fired two wild shots at the hotel manager and three more at investigating police.

OTTAWA (CP)—The 2005 Canadian apple crop was estimated at 25,000,000 bushels, 19 per cent larger than the 2004 harvest, and only four per cent under the record crop of 26,000,000 bushels in 2003.

The report by the Dominion Bureau of Statistics today was its fourth estimate of the year's apple production, 700,000 bushels higher than the previous preliminary figure.

Quebec's apple crop reached record 7,500,000 bushels compared to 3,000,000 bushels in 2003.

MOSCOW (AP) — The epidemic of foot-and-mouth disease that has slashed Soviet meat and milk production will soon be under control, Yuri Goloshchapov, a veterinary scientist said.

Charles Wright, a lecturer at the University of British Columbia, is on his second trip this year to the Antarctic. Now 35 years old, Sir Charles was a member of Scott's 1910 expedition to the Antarctic.

LONDON (Reuters) — Martin Watney, 38-year-old bachelor and friend of the Earl of Snowdon, was found shot to death in his London flat today.

Police said foul play was not suspected.

Watney was a friend of Lord Snowdon, then Antony Armstrong-Jones, when they were at Eton, Britain's most celebrated private school.

well, it makes Sally Campbell's life a lot easier

Advertising, it's been said, keeps trying to foist off on us a lot of things we don't need. Like refrigerators, freezers, electric floor polishers—and automatic washers.

It's true we don't absolutely have to have these things. In a sense, they're luxury items. But just try to tell Sally Campbell or any other housewife, that her automatic washer is a luxury.

Oh, we could probably get along without cars and vacuum cleaners and electric lights if we had to. Millions of people did for many thousands of years. But why should we? Is scientific progress something that should be kept secret?

Advertising, you see, is just a way of letting all of us know

what's new and different and better in the world today. It's a way of telling us about the things that can help make our lives a little easier, a lot more fun.

And when you buy an automatic washer, a new refrigerator, or a car, you raise your standard of living a notch or two. You put money in circulation. And you help create jobs. So everybody's standard of living goes up.

It's something to think about next time you pick up your daily newspaper. The ads you see there are actually helping you maintain and improve your standard of living. And they're making all of our lives a lot easier. Just ask Sally Campbell.

Europe May Move In

By KEN SMITH
Canadian Press Business Editor

The latest monetary moves in Canada and the United States may result in European countries achieving somewhat greater prominence in the Canadian economy at the expense of the U.S.

Some economic sources suggest Canadian business may turn more readily to European capital if needed following the U.S. announcement during the weekend of plans to reduce its investment in Canadian plants.

The increase Sunday in the Canadian bank rate—following a similar rise in the U.S. equivalent, the bank discount rate—should make it easier to work European money, they say.

Although the sources emphasize any such shift would involve only a small percentage of Canadian business in the short term, they say it could point the way to a possible easing of Canada's dependence on U.S. economic fortunes.

Officially the weekend developments do not affect Canada's right to go to the U.S. money market to borrow funds, since Canada's exemption from the U.S. crackdown on foreign borrowing remains in effect, but Ottawa has given Washington a commitment not to take advantage of that exemption if going in the well too often.

Thus, some economists say, could become necessary to grow from the steadily-growing European capital market if, expected, U.S. subsidiaries in Canada turn increasingly to the Canadian money market for funds under the new U.S. policy of reducing their investments from their parent firms.

Economists generally agree that both the investment limitation and higher bank rates should benefit the Canadian economy more than the cause of the present inflation, curbing tendencies.

During investment curbs, a gradual stretch-out program in Canada's booming construction industry warned several businessmen. They warned recently that inflationary trends appeared to be growing dangerously.

Last summer, the federal government deferred some capital projects to be able provide more money to the construction industry and in Ottawa, the government economist said the reduction could have the effect of extending that

ferment to sectors of the private economy.

Other sources said Canada should be able to raise almost all the extra money it might need domestically through funds freed for business by the growth of the Canada pension fund or by early incorporation and exploitation of the proposed Canada Development Corp.

The CDC as outlined in the last budget speech would be a \$1,000,000,000 organization owned through shares by the public, that would finance Canadian firms needing help to grow.

The increase in the bank rate to 4% per cent from 4% per cent also was seen as an anti-inflation factor. Although the Bank of Canada made no mention of inflation is announcing

The bank rate, the interest charged by the Bank of Canada

A higher rate means high interest, so borrowers have to pay more for funds. As a result, they may delay some projects rather than foot the additional interest charges and an economy growing too quickly.

Since interest rates affect every aspect of the Canadian economy, higher charges are bound to have a widespread effect, but bank officials say a change would be so small to be virtually unnoticeable.

BEGIN STUDY

The brothers, Royal and McNeal, said Monday they had started to study their prices, but the charge levelled against their best customers for loss of sales. W. Earle McLaughlin, president of Royal, said, however, any question of raising the price rate to the legal ceiling of six per cent from the present 4 1/2 per cent, since the law is automatic, since it does not have to be paid, the legal limit.

But the stock market has not been so sanguine about the new price reductions. Within an hour of the announcement,

The New York stock market took a sharp plunge and

banks quickly raised their interest rates on loans, generally to

European banking sources hailed the increase in the U.S. discount rate as a long-overdue move. For several years U.S. dollars have been invested in higher-yielding foreign investments, contributing to a steady outflow of dollars and the U.S.

PLAN SWITCH
The New York stock market decline was attributed by brokers to investors getting ready to switch to bonds, which could become more attractive with higher interest rates, and fears that the higher cost of money might blunt business expansion.

Some suggested, however, that the reaction was more violent than could be justified by the monetary actions. A total of 11,480,000 shares were traded, making it the fourth busiest day in the history of the exchange.

Germans' Work Lessens But Labor Shortage Grows

While West Germany's government looks on with a heavy heart, the country's labor shortage is growing. West German workers work fewer and fewer hours. The AP World Service said this week that the shortage of labor is the most serious problem facing the country. The shortage is the result of a number of factors, including the high cost of living, the high cost of education, and the high cost of housing. The shortage is also the result of a number of factors, including the high cost of living, the high cost of education, and the high cost of housing.

FRANKFURT (AP) - West German workers will have one day off for every two days on the job next year, even as their government calls on them to work longer.

Hard work, a proverbial German characteristic, has ceased to be a principal aspect of the affluent West German "somebody" work ethic.

Chancellor Ludwig Erhard has expressed deep concern about the long-range effects of this change in attitude in a country chronically ailing from a labor shortage. He fears more leisure will end the boom that has become a sort of national institution.

He suggested to parliament that the present 48-hour work week be extended by at least one hour. Almost at the same time, the press carried a report that Germans will average 120 days off in 1968, including national and religious holidays, weekends, and a paid vacation averaging 19 work days.

A private German polling institute found that 62 per cent of all Germans were willing to work longer hours if this would guarantee a continued boom. But there was a hitch.

Labor representatives pointed out that wage agreements permit extension of the work week by up to eight hours - provided the extra hours are at overtime pay, which is 50 per cent higher.

Thus, most German employers say an automation and continuing recruitment of foreign labor rather than greater readiness by their countrymen to work harder.

MOSCOW (AP) - There is a strong awareness of China's 500,000,000 people - three times the Soviet population. The Russians learned a lot of war; ago that numbers count.

No one here is suggesting that a Soviet-Chinese war is coming soon. It is just that many signs point to a growing feeling that the most likely future enemy is in the East rather than the West.

LAGOS, Nigeria (AP) - The high cost of wives is arousing many modern Africans.

Government price controls have been suggested. Many want to abolish the auction-like atmosphere surrounding marriage arrangements.

The bride price is a tribal custom which demands a down payment from prospective husbands and several additional installments in exchange for permission from the bride's family to marry.

In Nigeria the fee is usually cash payable before the marriage. Kenya custom sometimes permits payment in goods such as livestock, lumber and bicycles. The dowry in Kenya can be the equivalent of five years of the groom's income.

Angry young men in Nairobi formed the Kenya Dowry Reform Movement to protest payment for brides to greedy fathers.

The Omani Youth Association in eastern Nigeria placed a 75¢ price ceiling on brides "in order to make it easier for young girls in the town to get husbands."

Kenya's 50,000 - member Women's Movement suggested the government impose a \$15 ceiling.

A new civil code adopted in the Ivory Coast abolished contract marriages along with polygamy. There are no signs it is being enforced.

Upper Volta's President Maurice Yamoussouko said dowries reduce a woman to the rank of animal.

However, few Africans want to destroy the custom.

LISBON (AP) - Europe's longest suspension bridge is taking a finished look in Portugal. The 136-foot centre section was put into place this week, leaving about 300 feet of side spans to be filled before the 3,223-foot bridge is complete.

Skipper Of Canadian Vessel Refuses To Testify On Death

VANCOUVER (CP) - An inquest into the death of a crew member in the sinking of the Vancouver Islander, a tugboat, was adjourned Monday after the skipper of the Canadian boat refused to testify.

Coroner Glen McDonald said he would attempt to get a sworn statement from skipper Olofin Hansen of the Aleutian Queen made to federal investigators.

The coroner said he was writing the federal minister of transport to release the statement made by Hansen concerning the Nov. 10 collision with the Russian trawler and the subsequent drowning of Odd Grunland, 49, cook aboard the Aleutian Queen.

Said Coroner McDonald: "I am reiterating my statement earlier in this inquest that a master of a ship should testify where there is a loss of life involved."

He added that he had no choice but to ask the federal minister to release the statement made by Hansen earlier to Capt. Cyril Buril, supervising examiner of masters and mates, who investigated the collision in Queen Charlotte Sound off the northern tip of Vancouver Island.

The collision occurred outside Canada's 12-mile fishing limit but the Aleutian Queen sank inside the limit some time later as she attempted to make shore. Grunland drowned when a life raft flipped over.

Hansen's lawyer, Boyd Parry, said the statement made by the fishing boat skipper is confidential and should not be released.

Earlier the jury was told that crew members aboard the Russian trawler claimed they saw no members aboard the Aleutian Queen at the time of the collision.

Capt. Buril testified the Aleutian Queen's distress radio was not functioning properly at the time. A distress signal should have been sent immediately but none was sent until the skipper realized how seriously the Aleutian Queen was holed.

Hansen's son, Robert, 21, gave a graphic description of the crash. He said he awoke in the cabin and saw water pouring through a hole in the Aleutian Queen's north side. When he ran up on deck the Russian boat was 100 feet away and its crew members were signalling to him.

"I couldn't understand what they were shouting about," he said. "They kept pointing to some flag which they were running up the mast."

He said he ran down to the cabin to tell Grunland. His father then ordered him to man the pumps - and he was - joined later by the cook when the boat began to list badly.

"I then tried to get the raft into the water but it was too heavy," he said. "I called out to Grunland to give me a hand and we threw it over the port side."

He said all three jumped into the water. His father swam to the raft to tilt it upright and

Support Your School Board!

SATURDAY, DECEMBER 11th

School District No. 23 (Kelowna)

For the Position of Trustee:

Only the residents of the following 2 zones may vote for trustees on Dec. 11, providing their names are included on the published voters list now out.

TRUSTEES - Zone No. 1

2 candidates vying for one 2-year seat in the areas comprising:

Poplar Point - Glenmore North - Winfield - Okanagan Centre - Oyama

All eligible voters are to cast their ballots at the local schools excluding the residents of Poplar Point who are to vote at the Centennial Hall in Kelowna.

TRUSTEES - Zone No. -2

City of Kelowna

3 candidates vying for two 2-year seats in the City of Kelowna area.

Only residents in Kelowna proper may cast ballots for this area providing their names are included on the published voters list - Voters for Trustees in this area are to cast their ballots at the Centennial Hall.

We urge the owner-electors of School District No. 23 (Kelowna) to carefully and constructively read the information booklet now being delivered to their homes to derive a complete insight into the needs and requirements in this district so that we can continue to serve the educational needs of our young people.

For further information on the election of Trustees or Referendums 8 and 9, or the voters electoral list please phone the

School Board Office at 762-2837

ROME COUNCIL HIGHLIGHTS

VATICAN CITY (AP) - Highlights of the Vatican council's document Pastoral Constitution on the Church in the Modern World, promulgated today:

Marriage and the family - Marriage is not only an institution for procreation but also an inalienable part of human life. It is a partnership of two persons, requiring mutual love, mutual respect, mutual fidelity, and mutual assistance. It is a partnership of two persons, requiring mutual love, mutual respect, mutual fidelity, and mutual assistance.

Birth control - Roman Catholics must not use those methods of birth control forbidden by the church. A footnote calls attention to papal teachings against artificial contraception but notes that "further dialogue is still needed" on the matter.

War and peace - The right of legitimate defence cannot be delegated to governments as long as there is an international authority with sufficient means to maintain the peace. However, total war with the destruction of entire cities and regions must be condemned. There must be progressive, controlled and guaranteed disarmament.

Discrimination - All forms of racial, social and religious discrimination must be crushed. Man has the right to select his way of living and his work. In a family, to religious liberty.

Atheism - Its causes must be studied and eliminated. There can be a prudent dialogue between Christians and non-believers. (There is no mention of communism, but a footnote recalls past papal denunciations of communism.)

Social and economic life - Farmers have a right to a just income and should be assisted. Nations should seek international monetary stability so that none suffer. Advanced nations must aid developing countries. Private property must be protected but must not be used against the common good. Labor unions can strike as a last resort. Crimes have the right and duty to vote providing they can exercise their vote freely.

Upper Volta's President Maurice Yamoussouko said dowries reduce a woman to the rank of animal.

However, few Africans want to destroy the custom.

Thanksgiving Fire Claims 17th Victim

SAN ANTONIO, Tex. (AP) - The 17th victim of a U.S. Thanksgiving Eve fire at Kooch, Iowa, died Monday from burns suffered in the blaze. She was Mrs. Vera Pilkington, 44, of Nauvoo, Ill. The woman was flown here Nov. 30 with six other victims.

Ukrainian Group Has Sympathy With Quebec B-B Probe Told

QUEBEC (CP) - A Ukrainian group told the royal commission on bilingualism and biculturalism Monday that Ukrainians here generally are "sympathetic" to the aims and aspirations of French-speaking Canadians.

But Dr. Peter Worobey of Regina, explaining a brief from the Ukrainian Professional and Businessmen's Club, added: "We would not like to make concessions to the French in the extent that we as Ukrainians have no room for our language or to the extent that other languages would find no room."

Dr. Worobey said the club brief was endorsed by the Regina branch of the Ukrainian Canadian Committee.

Dr. Worobey said Ukrainians would like to see their language taught in lower grades in Saskatchewan schools to provide a better basis for those who wish to speak Ukrainian as adults. He said all levels of government should help minority ethnic groups build their cultures, for example through Canada Council grants in Ukrainian theatre groups.

A French-speaking westerner criticized those who want Quebec to become a unilingual province with French as its only official language.

Unilingualism was advocated at some hearings of the commission in Quebec.

Rev. Jean Papez, spokesman for the French-Canadian Cultural Association of Saskatchewan (l'Association Culturelle Franco-Canadienne de la Saskatchewan), said a unilingual Quebec would mean the suppression of guarantees for English-speaking minorities in that province.

This would weaken the position of French-speaking minorities in the West, he said.

Father Papez said his group would like to see a federal government body, perhaps along the lines of an ombudsman's office, set up to help ethnic minorities in Canada "meet provincial governments on an equal footing, for example in disputes over education."

FIRST IN SAME
About 30 persons turned out for the commission's hearing here, its first in Saskatchewan.

Dumont LePage of Gravelbourg, Sask., representing a company that operates French-language radio stations in Gravelbourg and Saskatoon, told the commission the stations have evidence their programs help people improve conversational French.

He said he would like to see a French-language television station in Saskatoon.

Rev. Andre Hamard, associate professor of education at the University of Saskatchewan, Saskatoon, said Canada is a multi-cultural nation but its educational systems do not place enough emphasis on this fact.

An awareness of Canada's "multi-culture dimensions" could be the country's great strength in resisting the influence of American culture.

Successful Poll See De Gaulle In

PARIS (Reuters) - An opinion poll that came close to predicting Charles de Gaulle's share of the vote in Sunday's presidential election today gave him a comfortable 60 per cent for the second ballot Dec. 12.

The French Public Opinion Institute's poll, published before the first ballot gave the general 65 per cent of the total vote. He got 64.61 per cent.

He needed 50 per cent plus one vote to win on the first ballot.

The newspaper Le Figaro says letters from readers showed that many who voted against de Gaulle Sunday are prepared to support him next time if foreign and economic policies are modified and the public is kept informed about government thinking.

MR. MERCHANT In selling ARE CALLBACKS NECESSARY?

Ask any good salesman, he'll tell you according to the experts most sales are made on the 7th call.

You wouldn't hire a salesman who refused to make call backs and only worked one day a week. Would you? Of course not!

Then why pay \$5.00 or more for a weekly ad when you can have a daily ad in the Courier for only \$4.50 per week. That's a lot of call-backs, 30,000 to be exact!

To put it another way a weekly ad means 24,000 calls per month. A daily ad in The Courier guarantees 624,000 calls. Costs only \$18.00 total!

P.S. People do read small ads, you are!

*** Based on 1965 figures per home.**

SPORTS SPOTLIGHT

By RON HOLLAND

There has been much controversy this year over the dispute between the Okanagan Junior Hockey League and the Okanagan Hockey Referees Association. Late in November The Courier printed both sides of the dispute. Blair Peters represented the referees and Dave Mackay the OJHL. On December 1, this column took a stand for the referees and their hesitancy to return to work. Last Friday we said the association was out to ruin the OJHL. Here is what Blair Peters says:

The Kelowna Daily Courier,
405 Doyle Ave.,
Kelowna, B.C.
Attention: Sports Editor
Dear Sports Editor:

Knowing I will not have the last word with regard to statements made in your column in the Kelowna Courier dated December 1, 1966, nevertheless I wish to inform you of the facts from the OJHL.

It surprises me to think we have a Sports Editor who can be taken in by a Hockey League, which is not too interested in developing hockey players and officials for the future. May I just point out that I have been to Vernon no less than three times, at my own expense, to try and arrive at some satisfactory solution, however, the OJHL failed to meet the OJHL in this matter.

The OJHL was formed with the purpose of developing referees and improving hockey on the junior level and also to recruit officials from the minor level. This takes a tremendous amount of work and money to organize and it was then the association approached the OJHL with this plan. The league appeared not too interested except to have referees that would referee for as little as possible.

May I say that the late manager of the Kelowna Buckaroos was the only director of this league who could see the benefits of this referees' association for the present and for the future, but Mr. Gamble could not, with all his efforts, make them see their error.

The league paid the referees \$10.00 per game when it first began operations with assurance of a raise in fee if successful. However, the league would not grant a raise in fee until threatened with a walk-out of referees and then they were raised from \$10.00 to \$12.50 after a couple of years.

When this association was formed this year the matter of assessing the junior league was carefully studied. The junior league did not consult the hockey fans when they raised the admission from 75c to \$1.00—did they make an issue of this as they did with the referees' association's demands?

Referee associations are becoming very important in every league, for example the Western International Hockey League, one of the oldest leagues in Canada, have never had an association until this year and I know of at least five other such associations in Canada as far away as the Maritime Provinces.

The cry from the referees' association was "too much money for services rendered." Well the association has agreed to come down to the league's offer of \$15.00 per game. Now another cry is heard from the league "the association want to dictate to the league." We wish no such dictatorship. We wish to protect our rights.

I was referee-in-chief of this league for one year, first vice-president of the Junior Hockey League (with no vote) for two years and am now past president of this league but I could not condone the actions of this league when last year's playoffs came and every referee who had worked hockey games since its inception were ridiculed, laughed at and no less than five referees were told they would not referee the playoffs—after they were good enough to referee all winter—they were not allowed to referee one game. I have refereed in no less than eight different leagues in my 15 years of refereeing, not counting minor hockey, and it is very unwise to take this attitude towards your officials.

If you want to give the hockey fan his 50c worth of hockey—the referee can make the game more exciting with his background of experience.

We, in Kelowna, have been very fortunate in that the Buckaroos have a good hockey club and the work of Ray Powell, Brian Roche and Mike Durban has not been too hard with such an unbalanced league as this, with scores 15-2, 9-3 etc. No serious "hubbards" will likely happen making it an easier job for the referees. However, with a competitive league things would be altogether different.

In closing may I suggest to you, the Sports Editor, that in future you obtain all the facts from both sides of the controversy which would help to make your reporting in the "Sports Spotlight" unbiased.

Anyone wishing further information may write to OJHL, Yours truly,
Blair Peters, President.
OKANAGAN HOCKEY REFEREES ASSOCIATION

879 Bernard Ave., Kelowna, B.C.
This is the position of the OJHL. Tune in tomorrow for the next exciting chapter of OJHL versus OJHL.

World Olympic President Impressed With Montreal

CHICAGO (CP-AP) — Avery Brundage, president of the International Olympic Committee, said Monday Mayor Jean Drapeau of Montreal and his administration "have excellent knowledge of Olympic principles."

Drapeau met Brundage Monday to discuss Montreal's bid for the 1972 Summer Olympic Games.

After the meeting Brundage said Montreal appears to have done much of the physical work the Olympics would necessitate. Preparations for the 1967 world's fair had given Montreal this head start.

He declined direct comment on Montreal's chances but said he is "very much impressed" by the interest and its enthusiasm.

TO DECIDE IN 1966
Brundage said bids for the 1972 Olympics will be accepted officially by the IOC at its Lausanne, Switzerland, office and the winners will be chosen some time in 1966.

Powerful bids are expected also from Munich and Moscow. Montreal's bid has been approved by the Canadian Olympic Committee, Canada, never host to the Olympics, either in

AVERY BRUNDAGE
... meets Drapeau

winter or summer, also is seeking the 1972 Winter Games for Calgary and the nearby resort area of Banff and Lake Louise, Brundage said.

"They (Montreal officials) showed me statistics and plans and much of their building program will be out of the way because of the world's fair, which will be held there in 1967."

"Many of the facilities will be installed long before 1972, in addition to new subway, and other civic improvements."

Palmer, Nicklaus Teamed In Event

PALM BEACH GARDENS, Fla. (AP) — Jack Nicklaus and Arnold Palmer teamed off as a team here Wednesday in Florida's richest tournament, the \$125,000 Professional Golfers Association four-ball championship.

Nicklaus and Palmer are the top drawing cards in a field of 216 pros—the most ever assembled for a single PGA tournament.

The first PGA event of the year, it will be a renewal of team competition for the first time since the 1953 Miami Beach International four-ball tournament, won by Tommy Bolt, who is in this year's lineup.

And it will be the first time Nicklaus, top money-winner of 1966, has teamed with Palmer in a PGA tournament.

There will be 108 two-man teams competing for \$200,000 first-place money in the 72-hole event, to be played over two courses at the PGA National Golf Club. Both courses are 36 holes.

PAGE 10 KELLOWA DAILY COURIER, TUES. DEC. 7, 1966

Mikita Clutches Top In Scoring

MONTREAL (CP)—Stan Mikita, Chicago Black Hawks' star centre, is making a strong bid to win his third consecutive National Hockey League scoring championship.

Mikita, 25, a native of Bohemia, Czechoslovakia, moved to the top of the individual scoring race with eight points last week, including six goals.

Statistics released by NHL headquarters today show Mikita with 16 goals and 15 assists for 31 points.

Bobby Hull, Chicago's star left winger, returned to action after missing four games and scored seven points, giving him second-place tie with Bobby Rousseau of Montreal Canadiens, last week's leader. Both have 26 points.

EACH IN A LEADER
Hull leads the league in goal scoring with 17 goals. Rousseau is the league's leading scorer with 16.

The big scoring feature of the week, however, belonged to Norm Ullman of Detroit Red Wings, last season's goal-scoring leader, who scored 10 points in the Wings' three games.

He scored four goals, including three in one game, and added six assists. That boosted him into a fourth-place tie with Jean Beliveau of Montreal, each with 23 points.

Doug Mohns and Phil Esposito of Chicago share sixth place with 20 points each, one more than Bob Nevin of New York Rangers.

Gordie Howe and Alex Delvecchio of Detroit and Gus Marshall of New York are tied for ninth place with 18 points apiece.

Jacques Laperriere of Montreal is the league's highest-scoring defenceman with 15 points.

Glenn Hall of Chicago maintained his lead among goalkeepers. In 17 2-3 games, Hall has been beaten 49 times for a 2.38 goals-against average. He also leads in shutouts with three.

Left winger John Ferguson of Montreal and defenceman Arne Brown of New York are the league's leading scorers among defencemen with 41 minutes each. Canadians are the team leaders with 256 minutes.

Wayne Hicks stands seventh in the scoring race.

Blackburn, who centres the Aces' top line with Hicks on the right and Wayne Hicks on the left, picked up seven points last week on four goals and three assists in three games and shows 13-15-28 for the season. Hicks has seven goals and four assists gave him 10-15-28.

One point behind is another Quebec player, Gord Labossiere, who has 11-16-27 and leads the league in penalty minutes with 50. Hicks is seventh in the scoring race with eight goals and 17 assists for 25 points.

Between Hicks and the top three are Dick Gamble of Rochester Americans, Murray Hall of Pittsburgh Hornets and Bob Courcy of Cleveland Barons with 24 points apiece.

Jockey Levi Gomez was suspended by stewards for careless riding.

His mount, Bright Section, ran up on the heels of the horse ahead, stumbled and fell hard. Grohs went hurtling over the horse's head and landed on his own head.

FAST START FADES, CHANGES WERE INDICATED

Sullivan Out, Francis In

NEW YORK (AP) — Emilio Francis, who traded many words with a goal judge and swapped punches with a fan two weeks ago, has a tougher fight on his hands today.

The New York Rangers general manager has the task of trying to guide his team up the National Hockey League ladder after replacing Red Sullivan as coach Monday. Sullivan, 35, remains with the club as co-ordinator of player personnel and talent scout.

Francis, 30, who has rebuilt the club with a series of major trades in the 13 months since he took over as general manager, takes command with the fifth-place Rangers in the midst of a six-game winless string.

Sullivan, in his third full season as coach, first trained the players for not giving 60 minutes of effort in every game and then backed off and blamed himself for overworking the team.

Francis becomes the NHL's third general-manager-coach—Toronto's Punch Imlach and De-

troit's Sid Abel were the others. "We're making the change with the hope we can get the club moving along toward the Stanley Cup playoffs," Francis said. "We've hit a bad streak recently but we feel the club can snap out of it."

Sullivan agreed. "I think we still have a good shot at the playoffs and if anybody can do the job, Emilio's the guy."

CONACHER LEAVES
TORONTO (CP) — Charlie Conacher, member of the Hockey Hall of Fame, left hospital here Sunday after four weeks of treatment following a heart attack.

But all betting shop operators have to go before magistrates once a year to renew their licences. That's where complaints about non-payment can hurt.

Turner's winning method was to recruit about 12 betters to monopolize the tote windows at the Dagenham track.

They poured money on two outsiders who clearly had no chance. Then they made isolated bets coupling the four other runners in "forecasts"—a bet in which you have to name the first and second dog.

BIG PAYOFF
Buckwell ran first at 2 to 1 and Handsome Lass second at 9 to 2.

The tote paid £267 11s 6d (£3,170) for a two-shilling (30-cent) bet on the forecast. These were the odds which Turner claimed from off-course bookies with whom he had backed the combination.

Some bookies have paid their regular clients. Others settled with regular customers for smaller sums—usually £50 or £100 for a two-shilling stake.

Turner said if he gets his money he plans to retire to a small farm and breed greyhounds.

He said his coup, despite its legality, can't be pulled again because bookies are wise to it and have tightened their defenses. But, he added, "I have a few other ideas that may surprise 'em."

ROCHESTER, N.Y. (AP) — Linemates Don Blackburn and Ed Hoekstra, whose firepower has helped Quebec Aces open a wide lead in the American Hockey League's Eastern Division, have shot into first place in the scoring race.

Blackburn, who centres the Aces' top line with Hoekstra on the right and Wayne Hicks on the left, picked up seven points last week on four goals and three assists in three games and shows 13-15-28 for the season. Hoekstra's two goals and four assists gave him 10-15-28.

One point behind is another Quebec player, Gord Labossiere, who has 11-16-27 and leads the league in penalty minutes with 50. Hicks is seventh in the scoring race with eight goals and 17 assists for 25 points.

Between Hicks and the top three are Dick Gamble of Rochester Americans, Murray Hall of Pittsburgh Hornets and Bob Courcy of Cleveland Barons with 24 points apiece.

Jockey Levi Gomez was suspended by stewards for careless riding.

His mount, Bright Section, ran up on the heels of the horse ahead, stumbled and fell hard. Grohs went hurtling over the horse's head and landed on his own head.

Emilio is also the guy who nearly precipitated a riot in Madison Square Garden two weeks ago when he raved from his seat in argument with goal judge Arthur Reichert over a disputed call.
